WILL ORGANIZE A BALL TEAM IN THE NEAR FUTURE

North Platte base ball enthusiasts, and there are a-plenty of them, are about to launch a movement to secure funds necessary to organize a team and before the end of the coming month it is hoped to have the team organized and the grounds in readiness. It is the intention to have a team of local players and not attempt to maintain a semi-professional team as in years past, and a canvass of the players in town has developed plenty material for a strong amateur team.

To get the team organized and the grounds in shape will require an initial expenditure of about \$500. The best and most available grounds are considered to be at the city park, locating the diamond immediately north of the grand stand, the latter to be used for the accommodation of the spectators. This would necessitate the removal of the judges stand, but this can be overcome by placing the stand on skids and moving it back and forth as the occasion might demand.

Word has been received from a number of surrounding towns that teams are being organized, and that North Platte is expected to get in the game. Among these towns are Scotts Bluff, Sidney, Ogallala, Gothenburg and Cozad.

Father and Son Return.

Leonard Robinson, Sr., and Leonard Robinson, Jr., arrived home Thursday, one coming on one train and the other on a following train. Both were in overseas service, the father with the 13th Engineering Regiment, the son with an air squadron. The senior Robinson was among the first 32,000 troops to go over in July, 1917, and was in service about nineteen months. In the railway transportation department he was for months continuously within hearing of exploding shells, and in a number of instances was in the thick of the flying fragments but escaped without serious injury. He says the rapidly with which the American boys constructed the immense docks and warehouses and laid the miles of railroads dumb-founded the French, and the systematic handling and transportation of guns and ammunition to the front lines discounted the French work to such an extent that there was really no comparison. He was near the St. Michele sector when the United States opened up with 1400 guns, mostly large calibre, and kept up the fire for five straight hours as fast as the guns could be worked. Located as he was, several miles away the noise was so deafening that conversation could not be carried on.

Switchman Fatally Injured.

Clyde E. Frazee, foreman of a switching crew in the local yards, met with an accident at three o'clock Saturday morning that resulted fatally. He was climbing to the top of a car when a hard jolt of the train threw him to the track, the wheels passing over his legs, crushing one above the foot, the other below the knee. He was taken to the General Hospital where he received the attention of three physicians but his condition was such that amputation could not at that time be made. He remained conscious until six o'clock, then lost consciousness and passed away at 9:30.

The deceased was thirty-three years of age and leaves a wife and two small children. The funeral was held from the home in the Fourth ward yesterday afternoon, Rev. Hess officiating.

Business Change.

A business change occurred yesterday when Paul Nolan and Hoyt Smithers purchased an interest in and took over the control of the Rexall drug store, Mr. Nolan becoming the manager and Mr. Smithers the secretary-treasurer. These young men in engaging in business for themselves have the advantage of a large acquaintance in the community. Mr. Smithers came here two years ago and associated himself with the North Platte Drug Co. as clerk in the Rexall store. Mr. Nolan has been a resident twelve years and until he enlisted in the service was employed at the Rexall store, a position he resumed upon his return from service last January. Friends of the young men wish them success in their business career.

Given Custody of Children.

The four orphaned Hemelright girls ranging in age from five to seventeen years were cited to appear in the county court Saturday for disposition. The citation alleged that they were homeless, were without parental care and were subject to a possible vicious life. The court permitted Vina, the oldest, to remain in the employ of Mr. and Mrs. Guy Swapp. Frances was given over to the care of Mr. and Mrs. Baker. Bessie was placed in charge of Mr. and Mrs. E. E. Moody and the youngest was given to a brother, a young man who works on a farm west of this city.

Higher Prices Send Telephone Expenses Up

Almost everything you buy costs more than before the war.

High freight rates and unusually high wages have caused the prices of nearly all raw materials to rise far above normal.

The increased cost of labor and of raw materials have advanced the price of manufactured products.

Prices generally are at a higher level than before the war.

We do not look for the price of labor and equipment to come down materially for several years.

Higher prices for equipment and generally higher operating expenses have increased the cost of furnishing telephone service.
